

# LOCK BLØK

*For a Better Classroom Door*

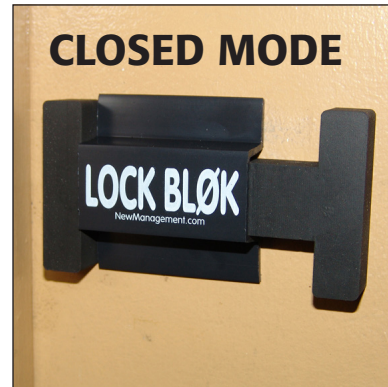

ABS plastic  
(extruded)

1/2" 40-durometer  
neoprene rubber  
(cut with a waterjet)

Even though this door is locked, the **LOCK BLØK** is preventing the door from closing enough to engage the latch.

In Open Mode, **LOCK BLØK** allows students to enter or exit the classroom without disturbing other students.

To revert back to normal operation, **LOCK BLØK**'s rubber slide is moved away from the edge of the door.

This enables the door to close completely which engages the lock mechanism.

QUANTITY	ITEM	UNIT COST	TOTAL COST
	<b>LOCK BLØK</b>	\$11.00
